

LINDA K. KENNEY

Linda K. Kenney, Executive Director and President of MITSS (Medically Induced Trauma Support Services, Inc.), founded the organization in 2002 as the result of a personal experience with medically induced trauma, when she identified the need for support services in cases of adverse events and outlined an agenda for change. Since that time, she has been a tireless activist for patient, family, and clinician support. She is a nationally and internationally recognized leader in the patient safety movement.

Linda has spoken at more than 100 healthcare forums, conferences, panels, and workshops. She is a much sought after presenter, well known for her energetic and interactive style.

Linda Kenney is eloquent, generous, and passionately devoted to the cause of improving health care safety and quality. She has effectively converted her own personal experience from near-tragedy to a resounding and affirming call for change, an act of leadership that motivates and inspires everyone fortunate enough to hear her.

Donald M. Berwick, MD, MPP, FRCP
President & Chief Executive Officer
IHI (Institute for Healthcare Improvement)

Linda is available to speak on a wide range of topics including ***Patient Safety, Patient Safety from a Patient Perspective, Clinician Support, Patient/Family Support, and Disclosure and Apology.***
